		30 <b>Share Day</b>				

## APRIL NEWSLETTER 2018

Dear Families,

This month we all of our learning subjects concentrate in the Science & Math or Social Science areas. We have:

- 2nd week-Gardening: we'll take care of our trees, plants, herbs, and flowers on the playground and plant some new items in our own pots to take home.
- 3rd week-National Kite Week: we'll make our own kites and fly some outside weather permitting.
- 4th week-Keep America Beautiful: we'll discuss how we can keep our environment clean and ways as human beings we can stop pollution.

We will do some planting this month, the children will have a choice between flowers, herbs, or vegetables. We will focus on the life cycle of a plant from seed, sprout, mature plant, flower/fruit, and seed.

This month is also our Spring Parent-Teacher Conferences, they will be held the last two weeks of April; the sign up is on the main door. These meetings will show you the progress of your child's development over this past year, focus on what are your child's areas of strength as well as areas that could use improvement. It is also a time for the Teachers to answer any of your questions and give you suggestions for how to reinforce your child's education at home. There are limited times the Teachers are available so please remember to sign up, be on time, and have your questions ready.

### REMINDERS:

- Please remember to Sign in/out daily, a few times per week we are missing signatures.
- Be sure your child has a change of clothing and shoes in his or her cubby.
- Children should not bring toys to preschool unless it is a Share Day, we don't want personal items to get lost or become damaged.
