Social & Emotional Development	Summertime Games Week	30	31 Happy Feet Dance Class			

July Newsletter 2018

It's Summertime and we have many fun theme weeks ahead of us! With warmer weather please remember sunscreen your child prior to drop off, ensure s/he has sunscreen available at preschool (along with a signed permission slip), a hat for sun protection, and an extra set of clothing for changing should your child participate in water play.

This month we will celebrate Independence Day, the children will learn about the "birth" of the United States and how we gained our independence from Britain. We will discuss why freedom is important and what types of freedoms we enjoy today.

Water Week allows us to engage in a variety of activities: water play, learning about mixing colors in the water, water and volume (displacement method), water measurement, etc.

For Picnic Week we'll talk about the types of foods are usually eaten, where you can have a picnic, what seasons are best to have a picnic, and how to clean up after a picnic.

For Astronomy Week we'll review the planets, stars, and most well known constellations. We will also talk about Space Exploration and what planets our space program have landed on and explored.

PLEASE REMEMBER WE ARE CLOSED ON JULY 4TH FOR THE HOLIDAY!

IMPORTANT ANNOUNCEMENTS:

- Ms. Julia has been part of the Skyline Teaching Staff as a Substitute for over 3 years now. Recently she has found a full-time job working for the Oakland Unified School District. We are happy for her, but will miss seeing her weekly. Ms. Julia will still remain part of our Skyline community filling in during Summertime.
- Ms. Bernadette is a former Skyline Director, and has been our Music Teacher for the past couple of years. She too has recently found a full-time position as a preschool teacher in San Francisco; she will finish her last class with us after the first week of August. We wish her luck and have been happy to have her as a long standing member of Skyline.
